east. Order hooks are in the
background.

January. 1960

July 29, 1960 Santa Fe train wreck in Kinsley, Kansas

Two Trains Wreck in Kinsley

"A brake show came loose on a box car on the Santa Fe last Friday morning and subsequently caused the derailment of twenty-one box cars of two freight trains. The trains were passing each other on two main lines when the brake show caught in the track and began the derailment. The cars jackknifed into the other train and the chain derailment of both trains began. The wreck occurred at 2:45 a.m. and the track was cleared that afternoon for service."

Santa Fe Railroad notepad
